Professional Summary

Passionate and results-driven Computer Science student at Ecole Nationale des Sciences Appliquées d'Al Hoceima (ENSAH), with a strong foundation in software development, algorithms, and system design. Experienced in full-stack web development, data structures, and problem-solving. Eager to apply technical expertise in a challenging environment at Oracle Morocco R&D Center.

Technical Skills

- Programming Languages: C, C++, JavaScript, PHP
- Web Development: Laravel, HTML, CSS, Bootstrap
- Data Structures & Algorithms
- Version Control: Git, GitHub, GitLab
- Database Management: MySQL
- Matlab for Data Analysis & Engineering Applications
- Problem-Solving & Analytical Thinking
- Graphic Design: Adobe Photoshop, Illustrator, Canva
- Digital Marketing: Facebook Ads Campaign Optimization

Languages & Soft Skills

- English (Fluent), French (Intermediate), Arabic (Native) Strong
- teamwork, communication, creativity
- Excellent analytical thinking, adaptability and problem-solving abilities

Education

Master of Engineering in Computer Science (In Progress)
Ecole Nationale des Sciences Appliquées d'Al Hoceima (ENSAH)
Expected Graduation: 2027
A rigorous program covering software engineering, data structures, algorithms, artificial intelligence, and web development. Focuses on both theoretical foundations and hands-on projects, fostering strong problem-solving skills and innovation.

High School Diploma (Baccalauréat) in Physics French Option (good honors)
Lycée AL-QARAWIYYIN
2021 - 2022

Experience

Freelance Digital Marketing Specialist
- Conducted market research and audience targeting to maximize ad performance.

Freelance Digital Marketing Specialist
- Conducted market research and audience targeting to maximize ad performance.

Projects

Hotel Management System (C)
Room booking, billing, staff authentication, and file-based data handling with error management.

University E-Service System (Laravel, MySQL)
web project managing academic units, professor requests and assignements , dashboards, and user roles.

Gym Management App (C++/Qt)
Desktop app for gyms tracking, subscriptions, finances, staff management and dashboard with Qt GUI.

Training

- Git, GitLab, GitHub Fundamentals for Software Developers
- CSS, Bootstrap, JavaScript, and PHP Complete Frontend and Backend Courses
- Online courses on Data Structures & Algorithms, and AI Fundamentals
